**NSK**

[www.rolman.com](http://www.rolman.com)

NSK, the third largest bearing maker in the world, was founded in 1916 and produced the first ball bearings made in Japan. Since then, the company has spearheaded the development of bearings in Japan. NSK now offers a full range of bearings and sells them worldwide. NSK bearings have contributed greatly to the growth of many industries and to the advancement of mechanical technology. Now, the company has the largest share of the bearings market in Japan and is one of the largest bearing suppliers in the world.

NSK aims to focus on the needs of each customer and market by further accelerating its business-based management system, in which sales, production, and technology functions are operated under one umbrella by the respective business division headquarters, which also hold responsibility for advancing growth strategy and profitability improvement initiatives.

				
<b>Ball Bearings</b> Deep Groove, Angular Contact, Self-Aligning, Thrust & N Series Thin-Section Ball Bearings Metric and Inch Designs.	<b>Roller Bearings</b> Needle, Thrust, Spherical, Tapered, & Cylindrical Roller Bearings.	<b>Bearing Units</b> Plummer Blocks and Ball Bearing Units.	<b>Super Precision</b> Super Precision Angular Contact, Super Precision Cylindrical, Ball Screw Support Bearings, and Angular Contact Slewing.	<b>Bearings for the Steel Industry</b> High performance bearings help to maximize uptime and to reduce maintenance costs for steel manufacturers.
				
<b>Bearings for Mineral Processing</b> Bearings for Mining Machinery and Bearings for Construction Machinery.	<b>Bearings-Pumps / Compressors</b> Bearings with outstanding resistance to oil, chemicals, and heat - superior reliability in chemical environments.	<b>For Special Environments</b> SPACEA Bearings for Vacuum - Corrosive - Clean - High-Temp & Dust-Contaminated Environments ; Non-Magnetic Requirements.	<b>Automotive Products</b> Hubs, EPS, Steering, Engine Parts, Electrical Accessories, Transmissions, CVT Units, and Motorcycles & ATVs.	<b>Precision Machine Components</b> Ball Screws, NSK Linear Guides™, Monocarriers, Megatorque Motor, XY Tables, and Accessories.

#### Engineered Solutions for:

Aerospace – Agriculture – Automotive – Ceramics – Conveyors – Cranes – Electric Motors – Elevators – Fans & Blowers – Food & Beverages – Gearboxes – Glass – Hoists – Industrial Generators – Injection Molding – Machine Tools – Marine - Material Handling – Medical – Metalworking – Mining & Construction – Motorcycles – Packaging – Papermaking – Powertools – Printing – Pumps & Compressors – Railway – Robots – Steel – Waste & Recycling – Wind Turbines – Woodworking.
